#### PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

#### PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

#### DEDUCTION OF CERTAIN NONTRADE OR NON-BUSINESS EXPENSES

PARAGRAPH 1. Section 29.23 (a)—15 (b) of Regulations 111 (26 CFR, Cum. Supp., Part 29), as amended by Treasury Decision 5331, approved February 9, 1944, and § 19.23 (a)—15 (b), as added to Regulations 103 (26 CFR, Cum. Supp., Part 19) by Treasury Decision 5193, approved December 8, 1942, and amended by Treasury Decision 5331, approved February 9,

1944, are each further amended as follows:

(A) By striking the sixth, seventh, eighth and tenth paragraphs thereof and inserting after the fifth paragraph the following:

Reasonable amounts paid or incurred by the fiduciary of an estate or trust on account of administration expenses, including fiduciaries' fees and expenses of litigation, which are ordinary and necessary in connection with the performance of the duties of administration are deductible under this section, notwithstanding that the estate or trust is not engaged in a trade or business, except to the extent that such expenses are allocable to the production or collection of tax-exempt income. But see § 29.162-1 for disallowance of such deductions to an estate where such items are claimed as a deduction under section 812 (b) in computing the net estate subject to the estate tax.

(B) By striking from the 11th paragraph thereof the last sentence beginning with the words "Expenditures incurred for the purpose of preparing tax returns" and inserting in lieu thereof the following:

Expenses paid or incurred by an individual in the determination of liability for taxes upon his income are deductible. If property is held by an individual for the production of income, amounts expended in determining a property tax imposed with respect to such property during the period when so held are deductible. Expenses paid or incurred by an individual in determining or contesting any liability asserted against him do not become deductible, however, by reason of the fact that property held by him for the production of income may be required to be used or sold for the purpose of satisfying such liability. Thus, expenses paid or incurred by an individual in the determination of gift tax liability, except to the extent that such expenses are allocable to interest on a refund of gift taxes, are not deductible, even though property held by him for the production of income must be sold to satisfy an assessment for such tax liability or even though, in the event of a claim for refund, the amount received will be held by him for the production of income.

PAR. 2. Section 29.24-2 of Regulations 111 and § 19.24-2 of Regulations 103, as amended by Treasury Decision 5166, approved August 17, 1942, are each amended by striking the eighth sentence which reads as follows: "Expenses of the administration of an estate, such as court costs, attorneys' fees, and executors' commissions, are chargeable against the corpus of the estate and are not allowable deductions."

PAR. 3. Subsection (e) of section 121 of the Revenue Act of 1942 (56 Stat. 819) provides as follows:

(e) *Retroactive amendment to prior revenue acts.* For the purposes of the Revenue

Act of 1938 or any prior revenue Act the amendments made to the Internal Revenue Code by this section shall be effective as if they were a part of such revenue Act on the date of its enactment.

Pursuant to the above provisions of law, the amendment to Regulations 103 (covering taxable years beginning after December 31, 1933) set forth in this Treasury decision is hereby made applicable to taxable years beginning prior to January 1, 1939 (such years being covered by Regulations 101, 94, 86, 77, 74, 69, 65, 62, 45, and 33).

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C. 62), corresponding provisions of prior revenue laws, and section 121 of the Revenue Act of 1942 (56 Stat. 819; 26 U.S.C., Sup. 23 (a) (2)))

Commissioner of Internal Revenue.

Approved: May 14, 1946.

## TITLE 30—MINERAL RESOURCES

### Chapter VI—Solid Fuels Administration for War

#### PART 602—GENERAL ORDERS AND DIRECTIVES

##### DIRECTION TO SHIPPERS OF BITUMINOUS COAL PRODUCED AT MINES RESUMING OPERA- TIONS WHICH WERE SUSPENDED ON OR ABOUT MAY 1, 1946

It is necessary during the period immediately following the resumption of mining at certain bituminous coal mines (Progressive Mine Workers of America) (1) that adequate coal be supplied for the continuance of activities most essential to the health and safety of the Nation and (2) that the balance of coal be distributed equitably so as to avoid hardship and distress. Accordingly, the following notice of direction is issued pursuant to SFAW Regulation No. 1, as amended:

1. Shippers of coal produced after the effective date of this notice of direction at bituminous coal mines which resume the operations that were suspended on or about May 1, 1946, are hereby relieved from the provisions freezing coal on track provided in the notice of direction dated April 30, 1946 (11 F.R. 4857).

2. Shippers described in paragraph 1 hereof are hereby prohibited from making any shipment of coal on track or of newly mined coal, except as follows:

(a) First preference is to be given to orders of public utilities, railroads, hospitals, food processing plants (including milk plants, dairies and commercial bakeries), refrigeration plants and laundries: *Provided, however,* That this preference is limited to such a consumer to the extent that his orders (1) are

promptly placed with his normal suppliers, and (2) do not exceed in the aggregate a tonnage equal to his estimated consumption requirements from the date of this notice of direction to May 31, 1946, plus that amount which may be necessary to bring his stock pile as of May 31 up to a 20 days' supply. First preference is also to be given to orders of persons operating steamships or tugboats on the Great Lakes, at tidewater or on a river to the minimum extent necessary to provide the fuel for actual operation of such steamships or tugboats.

First preference is also to be given to orders of retail dealers, lake and tidewater commercial dock operators placed with normal suppliers to the limited extent necessary to assure that they receive a supply of coal equivalent to the tonnage which their consumer customers in the categories described in the foregoing paragraph would be entitled under that paragraph if such customers were eligible to receive shipments direct from the shippers whose distribution is governed by this Notice of Direction.

(b) Second preference is to be given to orders of industrial consumers, other than those entitled to the first preference: *Provided, however,* That this preference is limited to such a consumer to the extent that his orders (1) are promptly placed with his normal suppliers and (2) do not exceed in the aggregate a tonnage equal to his estimated consumption requirements from the date of this notice of direction to May 31, 1946.

Second preference is also given to orders of retail dealers, lake and tidewater commercial dock operators placed with normal suppliers to the limited extent necessary to assure that they receive a supply of coal equivalent to the tonnage which their consumer customers in the category described in the foregoing paragraph would be entitled under that paragraph if such customers were eligible to receive shipments direct from shippers whose distribution is governed by this Notice of Direction.

(c) Third preference is to be given to orders of domestic consumers served directly by the shipper or through a retail dealer or commercial dock operator but only to the limited extent necessary to alleviate actual hardship or distress.

(d) The balance of coal which may remain after the shipper arranges to accord during May 1946 the preferences prescribed in subsections (a), (b) and (c) above shall be distributed equitably, and so as to avoid serious impairment of the economy of the Nation, to retail dealers, commercial dock operators on the Great Lakes and at tidewater; and in the event that further distribution arrangements are necessary in order to avoid curtailment of production for lack of markets the shipper may distribute coal to build further the stock piles of the consumers described in subsection (b) hereof.

(e) Within each of the preference categories described in (a) and (b) above

the shipper shall generally accord priority in shipment to the consumer whose stock pile position is weakest, taking into account his days' supply of coal, the transportation time from the mine to the consumer's stock pile, and other pertinent factors.

(f) The shipper is authorized to make such practical adjustments in the foregoing program as may be (1) necessary to assure uninterrupted mining operation, (2) necessary to assure the efficient use of available and normal transportation equipment, or (3) necessary to carry on distribution which accomplishes the objectives of this direction through sales agents, wholesalers or other normal channels of distribution.

3. No person is authorized to order or receive any coal in excess of the amount permitted to be delivered under the provisions of this direction.

4. The provisions of this direction are not applicable to the persons and transactions covered by the Notice of Direction Concerning Deliveries of Bituminous Coal by Retail Dealers and Commercial Dock Operators at Lake and Tidewater, issued on May 6, 1946 (11 F.R. 5016) which direction will continue in effect until further notice.

5. No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with the provisions of this direction.

6. Applications for exceptions or modification from the provisions of this direction shall be filed with the appropriate Area Distribution Manager or with SFAW in Washington. Applications shall set forth in detail the grounds for requesting relief and information supporting the request.

7. All coal subject to this notice of direction (including tonnage at captive mines) may be diverted by specific direction of SFAW to meet emergency requirements of consumers whose continued operation is vital to the health and safety of a community.

8. The words used in this notice of direction shall have the same meaning as they had in SFAW Regulation No. 27 (10 F.R. 2909) unless otherwise indicated by the context.

9. This notice of direction shall become effective immediately and shall remain in effect until further notice.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; Sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 176, 58 Stat. 827 and 59 Stat. 658)

Issued this 14th day of May 1946.

DAN H. WHEELER,  
Deputy Solid Fuels  
Administrator for War.

## TITLE 32—NATIONAL DEFENSE

### Chapter IX—Civilian Production Administration

**AUTHORITY:** Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827 and Pub. Law 270, 79th Cong.; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; E.O. 9638, 10 F.R. 12591; CPA Reg. 1, Nov. 5, 1945, 10 F.R. 13714.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 18]

#### DISPOSAL OF COTTON TENT TWILL BY THE WAR ASSETS ADMINISTRATION FOR MAKING FUMIGATING TENTS FOR CITRUS FRUIT TREES

The following direction is issued pursuant to PR 13:

(a) *What this direction does.* There is an urgent need for cotton fabric suitable for use in the manufacture of fumigating tents for the fumigation of citrus fruit trees since cotton fabric is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to make available immediately for the above use approximately 650,000 yards of 11.06 oz. tent

twill 36" wide, which is part of a lot of 1,502,960 yards of this tent twill now held by the War Assets Administration as surplus property under declaration No. 7-19601, Item 2. It permits sales of this tent twill to be made by the WAA only in accordance with paragraph (b) below.

Although this direction restricts sales to persons who will use the fabric for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the tent twill from WAA.

(b) *Restrictions on sales by WAA.* With respect to 650,000 yards of the fabric described in paragraph (a), WAA may not sell any of such fabric except where the purchaser will use the fabric to make tents for the fumigation of citrus fruit trees and gives a certificate with his purchase order in substantially the following form:

The undersigned certifies to the seller and CPA, subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that (1) he is a grower of citrus fruit, or is engaged in the business of fumigating citrus fruit trees for a grower or growers; and (2) he will use the fabric obtained under this purchase order only to make or repair tents for the fumigation of citrus fruit trees.

The standard certification in Priorities Regulation 7 may not be used instead of this certificate.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the fabric he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked, this direction shall expire on July 15, 1946; but its expiration at that time shall not relieve any person who has obtained cot-

ton fabric by use of the certificate referred to above, from the obligation of using the fabric in accordance with the certificate which he has given.

Issued this 15th day of May 1946.

#### PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-391, as Amended  
May 15, 1946]

#### RAYON FABRICS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rayon fabrics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.366 *Conservation Order M-391—(a) Introduction.* This order states most of the special rules, and refers to others, for distribution of rayon fabrics, particularly with respect to set-asides for certain purposes, the certificates of use which must be filed with orders to obtain set-aside fabrics, and the effect and use of preference ratings, including maximum amounts which need be delivered on certain rated orders.

(b) *Definitions.* As used in this order:

(1) "Feminine street wear" means suits, coats and jackets, manufactured

for feminine street wear for civilians. The term does not include housecoats, bathrobes, bed jackets, and other apparel customarily worn only in the home, or items not made for street wear, such as sportswear and evening wear.

(2) "Rayon fabrics" means any woven or knitted (both circular and warp) fabric, containing less than 25% wool by weight, but of which the remaining fibers are more than 50% of synthetic fiber (filament or spun yarn, or their blends) by weight. For example, a fabric containing 20% wool, 41% rayon, and 39% cotton is a rayon fabric. Except where otherwise indicated, it includes such fabrics, whether gray, original mill or regular finish, bleached, dyed, printed, or otherwise processed as fabric. Particular kinds of rayon fabrics are designated in the attached table of this order by the reference numbers and corresponding descriptions contained in Form CPA-658C, and the listing of a reference number includes the kind of rayon fabric covered by the corresponding description in Form CPA-658C.

(3) "Producer" means any person who weaves or knits rayon fabrics from yarn owned by him, or who has rayon fabrics woven or knitted for his account, from yarn owned by him, whether he delivers them in the gray, finished, or partially finished state. If a person supplies yarn to a weaver or knitter for processing on a basis under which a part of the fabric produced from that yarn is to be owned by the yarn supplier, and part by the weaver or knitter, the yarn supplier is the producer of that part of the fabric which he will get, and the weaver or knitter is the producer of the remainder. Where a person supplies yarn to a weaver or knitter in exchange for fabric not made from the yarn supplied, the weaver or knitter is the producer of all of the fabric made from the yarn which he gets in this way, as well as of any other fabric produced by him.

(4) "Finished goods supplier" means any person who finishes, or has finished for his account, rayon fabrics which he owns, whether he produces them in the gray, finished or partially finished state.

#### Set-asides and Deliveries for Feminine Street Wear

(c) Distribution by producers—(1) Quarterly set-asides. In each calendar quarter, beginning with the second quarter of 1946, every producer of the rayon fabrics for which a percentage is set aside for linings for feminine streetwear in the attached table (Column 3), whether he sells them in the gray or finished state or uses them to manufacture other products, shall set aside for delivery in the gray state on orders accompanied by the certificate in paragraph (f) (1) below, an aggregate yardage equal to at least the percentages shown of his production during that period. A producer must apply the percentage shown for each fabric to his quarterly production of that

fabric, and add the totals to determine his aggregate set-aside. He need not, however, deliver individual yardages of each fabric in proportion to the percentage stated for that fabric, as long as his total deliveries of all these fabrics equal his aggregate set-aside. This set-aside obligation may be filled from inventory on hand at the beginning of the quarter as well as from production during the quarter.

(2) Carry-over of required shipments. If any producer does not deliver the full yardage required during any calendar quarter, he shall deliver in the next calendar quarter a yardage equal to the undelivered quantity, in addition to the yardage which he is otherwise required to deliver in that next quarter.

(d) Deliveries of finished goods—(1) Quarterly deliveries. In each calendar quarter, beginning with the second quarter of 1946, every finished goods supplier must, if possible, deliver an aggregate yardage of the rayon fabrics subject to the set-aside under paragraph (c) above, with a finish which makes them suitable for use as linings in feminine streetwear or with a finish customarily required for such use, at least equal to the aggregate yardage which he orders for delivery in the gray state in that quarter under the certificate in paragraph (f) (1) below. Such quantities shall be delivered only to persons who give the certificate in paragraph (f) (2) below. They may be delivered from inventory on hand at the beginning of the quarter as well as from fabrics received or finished during the quarter.

(2) Carry-over of required shipments. If any finished goods supplier does not deliver the full yardage required during any calendar quarter, he shall deliver in the next calendar quarter a yardage equal to the undelivered quantity, in addition to the yardage which he is otherwise required to deliver in that next quarter.

(3) Calculations of yardage by finished goods suppliers. In calculating the yardage which he is required to deliver under this paragraph (d), a finished goods supplier may deduct from that yardage the actual and unavoidable shrinkage resulting from processing of the fabrics delivered to him on the certificate in paragraph (f) (1) below. For example, a finished goods supplier may have an actual processing shrinkage of 5% on rayon fabric received by him in the second calendar quarter, 1946, under this certificate. If he receives 100,000 yards of rayon fabrics under the certificate, the quantity which he is required to deliver in that quarter under the certificate in (f) (2) is 95,000 yards.

(e) Quarterly processing. In each calendar quarter, beginning with the second quarter, 1946, every finished goods

supplier shall put into process for finishing in a manner which will make them suitable for use as linings in feminine street wear, or will give them a finish customarily required for such use, yardages of the rayon fabrics subject to the set-aside in paragraph (c) above at least sufficient to enable him to make the deliveries required under paragraph (d) above.

(f) Form and use of certificate—(1) By persons ordering gray goods. The following is the form of certificate to be used under paragraph (c) above:

The undersigned certifies to the supplier and to CPA, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that he will finish the material covered by this purchase order, or an equivalent yardage of similar material, as linings for feminine street wear, and will deliver such quantity only to persons who give the certificate under paragraph (f) (2) of CPA Order M-391.

This certificate may be used only by a finished goods supplier.

(2) By persons ordering finished goods. The following is the form of certificate to be used under paragraph (d) above:

The undersigned certifies to the supplier and to CPA, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that he will use the material covered by this purchase order only as linings in feminine street wear manufactured by him, or will dispose of it only to persons who give this certificate.

This certificate may be used only by a manufacturer of feminine street wear or by a jobber who will resell the material only to manufacturers of feminine street wear.

(3) Use or disposal of material obtained with certificates. Persons giving either of the certificates in (f) (1) or (f) (2) above may use, finish, or dispose of material they get with it only in accordance with its terms and the provisions of this order.

(4) Orders need not be re-certified. A purchase order which has been properly certified under this order before its amendment on May 15, 1946, by a person entitled to use the certificate in (f) (1) or (f) (2) above, need not be re-certified. Materials delivered or received on such certified orders are subject to the rules applicable to materials delivered or received under the certificates in (f) (1) or (f) (2), as the case may be, and may be used, finished, or disposed of only as if they had been received under one of these certificates.

(5) Other rules. It is not necessary to have a preference rating or authorization from the CPA to use the certification in (f) (1) or (f) (2), but the quantities of fabric which may be ordered, received, or delivered on certified orders are sub-

ject to the rules in Priorities Regulation 32, which controls inventories. The standard certificate in Priorities Regulation 7 may not be used instead of these certificates.

#### Other Set-Asides

(g) Set-asides and deliveries of rayon fabrics for other specified purposes—(1) M-328B Programs. The provisions of Order M-328B, its schedules, and directions provide for set-asides and deliveries of certain fabrics for apparel and piece goods. The percentages shown for these set-asides in the attached table (columns 4 and 5) are included only for purposes of explanation and are not controlling.

(2) Linings for certain men's and boys' clothing. The provisions of Direction 28 to Order M-328 provide for deliveries of all of certain rayon fabrics for use as linings for certain men's and boys' clothing. This is indicated in the attached table (column 6) only for purposes of explanation.

#### Effect and Use of Preference Ratings

NOTE: Paragraph (h) (1) formerly paragraphs (j) (1) and (j) (2) combined, May 15, 1946. Paragraph (h) (2) formerly (h) (1) redesignated May 15, 1946. Paragraph (h) (3) formerly (h) (2) redesignated May 15, 1946.

(h) Rated orders for linings for feminine street wear—(1) CC rated orders for linings must be certified. Any person who applies or extends a CC rating on an order for any rayon fabrics to be used as linings for feminine street wear must furnish with his order the certification in paragraph (f) above. CC rated orders for rayon fabrics to be used as linings for feminine street wear which were unfilled on April 19, 1946, must be certified by the purchaser promptly, and in any event not later than April 30, 1946, by giving his supplier the certification in paragraph (f) above, with the addition of sufficient information to identify his previously placed order which is being certified. For example, in the certification the words "this purchase order" may be changed to "Our purchase order No. \_\_\_ dated \_\_\_\_\_ for \_\_\_\_\_ yards of rayon fabrics", inserting the information needed by the supplier to identify the order. After April 30, 1946 any unfilled CC rated order for any rayon fabrics that the supplier knows or has reason to believe are to be used as linings for feminine street wear, which has not been certified by the purchaser, shall be treated by the seller as unrated.

(2) Certified orders. No producer or finished goods supplier need accept or fill orders with the paragraph (f) certificate (whether CC rated or unrated) which would cause him to deliver during any calendar quarter more rayon fabrics on orders thus certified than

the quantities required by this order. Within the quantities of fabrics required to be delivered on certified orders under paragraphs (c) and (d) above, however, CC rated orders which are also accompanied by the paragraph (f) certificate must be accepted and delivered in preference to unfilled orders which are certified but unrated.

(3) Rated orders not certified. Orders rated MM, and CC rated orders without the paragraph (f) certificate, may not be charged against the deliveries required under paragraphs (c) and (d) above.

(i) Ceilings on required acceptance of certain rated orders—(1) Producers. No producer need accept or fill MM or CC rated orders which are not certified for a set-aside purpose (as covered by columns 3, 4, or 5 of the attached table), if this would cause him to deliver in the gray state in any calendar quarter more of any rayon fabric for which a ceiling percentage is specified in the attached table (column 8), than a yardage equal to the specified percentage of his total production of such fabric in that period. If he does accept such rated orders for yardages of any one of these fabrics in excess of this ceiling, the excess may not be charged against the rating ceiling for any other fabric. The rating ceiling is for individual yardages of each fabric.

(2) Finished goods suppliers. No finished goods supplier need accept or fill MM or CC rated orders which are not certified for a purpose for which gray goods are set-aside (as covered by columns 3, 4, or 5 of the attached table), if this would cause him to deliver in any calendar quarter more of any rayon fabric for which a ceiling percentage is specified in the attached table (column 8), than a yardage equal to the specified percentage of his total deliveries of such fabric in that period. If he does accept rated orders for yardages of any one of these fabrics in excess of this ceiling, the excess may not be charged against the rating ceiling for any other fabric. The rating ceiling is for individual yardages of each fabric.

(3) Certain rated orders not chargeable against rating ceilings. M-328B CC rated orders and CC rated orders with the certificate in paragraph (f) above, may not be charged against the rating ceiling for any fabric under paragraphs (i) (1) and (i) (2) above.

(4) Priority within rating ceilings. Within the ceilings established under paragraphs (i) (1) and (i) (2) above, MM rated orders must be accepted and filled in preference to undelivered orders with CC ratings, in accordance with Pri-

orities Regulation 1, and all other rules of that Regulation also apply.

(5) AAA ratings. Any orders rated AAA must be accepted and filled in accordance with Priorities Regulation 1, regardless of the provisions of this order.

NOTE: Paragraph (j) formerly paragraph (i) redesignated May 15, 1946.

(j) Integrated operations. Requisitions for intra-company deliveries of rayon fabrics from the producing mill shall be treated as if they were purchase orders, for the purposes of this order.

#### Miscellaneous

(k) Records and reports—(1) Records. Each person participating in any transaction to which this order applies shall keep and preserve for at least two years accurate and complete records of the details of each such transaction and of his inventories of the material involved, in accordance with § 944.15 of Priorities Regulation 1.

(2) Reports. Subject to the approval of the Bureau of the Budget under the Federal Reports Act of 1942, all persons affected by this order shall execute and file with the Civilian Production Administration such reports as the CPA shall from time to time require.

(l) Applicability of regulations. Except as otherwise provided in this order, this order and all transactions affected thereby are subject to all applicable regulations of the CPA as amended from time to time.

(m) Appeals. Any person who considers that compliance with any restriction of this order would work an exceptional and unreasonable hardship, may appeal for relief. The appeal shall be made by filing a letter in triplicate with the Appeals Branch, Textile Division, Civilian Production Administration, Washington 25, D. C., Ref. M-391, referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(n) Violations. Any person who willfully violates any provision of this order or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine and imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control and may be deprived of priority assistance.

(o) Communications. All communications concerning this order shall, unless otherwise directed, be addressed to Textile Division, Civilian Production Administration, Washington 25, D. C., Ref. M-391.

Issued this 15th day of May 1946.

#### PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-391, Direction 1]

#### REVOCATION OF CERTAIN CC RATINGS FOR RAYON FABRICS FOR USE AS LININGS IN FEMININE STREETWEAR

The following direction is issued pursuant to Conservation Order M-391:

(a) Purpose. Rayon fabrics for use as linings in the manufacture of feminine streetwear may now be obtained under Conservation Order M-391, by manufacturers of such apparel. The priorities assistance assigned to many of such manufacturers to get rayon fabrics for that purpose should no longer be necessary in many, if not in all, cases. This direction revokes all such ratings

assigned for that purpose which were not used by the end of April 1946.

(b) Revocation of certain CC ratings. All CC preference ratings assigned before May 1, 1946, on Form CPA 2842 (or Form CPA 541A) to manufacturers of feminine streetwear for rayon fabrics to be used as linings in the manufacture of feminine streetwear (as defined in Conservation Order M-391), which were not used on purchase orders certified by the purchasers in accordance with paragraph (j) of Order M-391 as issued April 19, 1946 (paragraph (h) (1) of that order as amended May 15, 1946), and accepted by a supplier not later than April 30, 1946, are hereby revoked.

However, ratings on purchase orders placed and accepted, and certified by the purchaser, in accordance with Order M-391, before May 1, 1946, are not affected by this direction.

(c) Notice to suppliers. Any person assigned a preference rating which is revoked by this direction must immediately, in the case of each purchase order to which he has applied the rating, either cancel the order or inform his supplier that it is no longer to be treated as rated. If any person receives notice from his customer, or otherwise, that the customer's order is no longer rated, or that the customer's order is cancelled, he must immediately withdraw any extension of the rating which he has made to any order placed by him.

The cancellation of CC ratings by this direction does not require cancellation of the purchase orders or the certificates used with them as long as the preference ratings are withdrawn.

Issued this 15th day of May 1946.

DESCHUTES IRRIGATION PROJECT,  
NORTH UNIT, OREGONANNOUNCEMENT OF ANNUAL WATER RENTAL CHARGES<sup>1</sup>

APRIL 30, 1946.

1. I have determined that it is factually impossible, because construction work is not sufficiently advanced, to promulgate during the year 1946 any of the public notices of construction charges contemplated in article 16 of the contract between the United States and the Jefferson Water Conservancy District dated January 4, 1938, as amended by the contract dated September 5, 1945.

2. *Water rental*. Pursuant to article 34 of the contract dated January 4, 1938, water will be furnished, when available, upon a rental basis during the irrigation season of 1946 (commencing on May 20) where the progress of construction will permit, to privately owned lands under the North Unit Main Canal of the Jefferson Water Conservancy District described below:

Total	32,000

2. The preliminary estimate of the probable cost of the works to be provided the District under said contract is \$4,928,000.

3. The preliminary estimate of the construction charge per irrigable acre for the works built and to be built under this contract is hereby announced as \$154.00 an acre. This per acre construction charge is preliminary and subject to readjustment upon completion or termination of the construction program for providing the works to the District under said contract and the ascertainment of the actual cost thereof, and is subject to increase or decrease to the end that the District will pay to the United States the full construction cost as finally determined by the Secretary of the Interior.

4. The construction charges payable by the District to the United States on account of the above described lands of the District will be due and payable in seventy-eight (78) semiannual installments and will be based upon this preliminary estimate until the actual cost of the works to be provided the District under the said contract is determined and announced. Each of the first eight (8) of these semiannual installments will be One and no/100 dollars (\$1.00) per irrigable acre, as the irrigable acreage is shown on the above list of lands, and will be due and payable by the District to the United States on December 31, 1946 and on July 1 and December 31 of each of the years 1947, 1948 and 1949 and on July 1, 1950. The remaining seventy (70) semiannual installments will be equal semiannual installments and will be due commencing with the installment due on December 31, 1950 and on July 1 and December 31 of each year thereafter. The amount per acre of the seventy (70) equal semiannual installments will be determined and announced hereafter.

5. Pursuant to article 10 (e) of the said contract of October 22, 1926, the operation and maintenance charges for 1947, payable to the United States on behalf of the above described land, shall be transferred to and paid as a part of the construction payment. If the District elects to take over operation and maintenance of the transferred works, the charges for operation and maintenance of the reserved works will be the only operation and maintenance charges payable to the United States in 1947, and the cost of such operation and maintenance will be transferred to and paid as a part of the construction payment pursuant to said article 10 (e). The operation and maintenance or water rental charges for 1946 will be paid by the District to the United States in accordance with the letter of August 29, 1945 to the District from the Commissioner of Reclamation.

6. The District may, at its option, take over the operation and maintenance of the irrigation works on January 1, 1947, pursuant to article 11 of the said contract of October 22, 1926. The irrigation works which, at its request, will be transferred to the District for operation and maintenance (herein styled transferred works) are as follows:

Diversion dam for the Main Canal in the Malheur River;

Main and branch canals, laterals and structures in connection therewith;

All drainage ditches and works in connection therewith.

The Agency Valley Dam and Reservoir (herein styled reserved works) are reserved for operation and maintenance by the United States.

7. After January 1, 1947, delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

(a) *Operation of project works.* On or before September 1, 1946, the District will notify the United States, whether it elects to take over the transferred works on January 1, 1947. If the District does not so elect, all of the project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given (on or before September 1 of any subsequent year) to the Secretary of the Interior (herein called the Secretary) by the District, electing to have the transferred works turned over to the District for operation and maintenance, and fixing the date as of the beginning of any calendar year on or after January 1, 1948, when the transfer is to be made effective. If the District does elect to take over the transferred works, the United States will continue to operate the reserved works.

(b) (1) *Payment of operation and maintenance costs.* Except as provided in paragraph 5 of this notice, during the period that any or all of the project works are being operated by the United States, the District will pay directly to the United States the cost of operation and maintenance of the works being operated and maintained by the United States. This shall apply to the period of the operation and maintenance of the reserved works after the transferred works are being operated and maintained by the District as well as to the period, if any, subsequent to January 1, 1947, that all project works are being operated and maintained by the United States, and the words "project works" as used hereafter shall be construed accordingly. The amount of the annual payment shall be fixed by the Secretary and payment shall be made as provided herein. Beginning with the calendar year 1947 the Secretary shall furnish to the District on or before September 1 of each year, or as soon thereafter as practicable, and after consultation between officials of the Bureau of Reclamation and the Board of Directors of the District, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year. For the calendar year 1948, and each succeeding year hereunder, the District shall pay such operation and maintenance charges as follows: twenty-five per cent (25%) on or before January 1, thirty-five per cent (35%) on or before April 1, twenty-five per cent (25%) on or before July 1, and fifteen per cent (15%) on or before October 1 of each year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of the operation and maintenance

charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date or dates specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the actual cost for the year is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the date or dates specified in the notice announcing such deficit.

(3) The determinations as to what costs incurred by the United States are properly chargeable under this provision to the operation and maintenance of the project works shall be made by the Secretary.

(c) *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect moneys to meet operation and maintenance charges shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project water rights, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than three (3) acre-feet for an irrigation season. Such announcement will be made for each season on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to the water users in any season on payment to the District therefor at not less than the following rates: the first acre-foot or fraction thereof at a charge per acre-foot which shall be not less than fifty per cent (50%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge; the second acre-foot or fraction thereof and each additional acre-foot at a charge per acre-foot which shall be not less than seventy-five per cent (75%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been

made by the water user to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

(d) *Existing contracts unaffected.* This notice is given pursuant to the existing repayment contract, as amended, between the United States and the District, and, except as the provisions herein are inconsistent therewith, such repayment contract, as amended, remains in full force and effect.

(e) *Terms of this notice not binding on any future amendatory repayment contract negotiations.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provisions of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the District or the United States in connection with any other later amendatory repayment contract.

8. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, the giving of the notice from the District to the United States under articles 7 (a) hereof, or the payment by the District to the United States of any charges hereunder, will be treated as the District's acceptance of this notice and all of its provisions and the delivery of water to the District at any time is predicated on this understanding.

OSCAR L. CHAPMAN,  
*Acting Secretary of the Interior.*

### MARKET AGENCIES AT OMAHA UNION STOCK YARDS

#### NOTICE OF PETITION FOR MODIFICATION

By an order entered on November 19, 1926, pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), the Secretary of Agriculture prescribed reasonable rates and charges to be observed by the respondents. On July 29, 1941, the order of November 19, 1926, was temporarily modified, and, as so modified, has been extended from time to time and is still in effect.

By a petition filed on May 1, 1946, the respondents have requested that the existing schedule of rates and charges prescribed by the order of July 29, 1941, as

extended, be amended to include in said schedule of rates and charges the changes shown in Exhibit B attached to respondents' petition.

The effect of such proposed modification, if granted, would increase the selling charges for cattle, hogs, sheep, and goats, and also increase the buying charges for sheep, thus resulting in additional revenues to the respondents, and, therefore, public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of said petition for modification.

All interested persons who desire to be heard upon the matter requested in said petition for modification shall notify the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C., within fifteen days from the date of the publication of this notice.

Copies hereof shall be served upon the respondents by registered mail or in person.

Done at Washington, D. C., this 13th day of May 1946.

ROUND OAK CO.

#### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Supplementary Order No. 133; It is ordered:

(a) This order establishes a method by which resellers of ranges in the line of coal ranges manufactured by the Round Oak Company, Dowagiac, Michigan may determine their ceiling prices for their sales of those ranges in that line which the manufacturer has sold at prices adjusted pursuant to Order No. L-18, as amended, under Supplementary Order No. 133. A reseller shall determine his ceiling prices for resales of any range which the manufacturer has sold at a ceiling price adjusted under Order No. L-18, as amended, under Supplementary Order No. 133 as follows:

(1) If he has ceiling prices established for sales of comparable articles he shall calculate his ceiling price under this order by adding to his invoice cost (not including his supplier's separately stated OPA Industry Reconversion Increase) the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one that meets the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade

practices, an approximately equal percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration. Each reseller, must, however, keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a reseller cannot otherwise find his ceiling price for a particular sale he shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) A wholesaler establishing his ceiling prices under this order shall provide each purchaser for resale from him of ranges covered by this order with a sales invoice which conforms to the provisions of Section 11c of Maximum Price Regulation No. 64 on which he must separately state and designate as his "OPA Industry Reconversion Increase" an amount equal to three-fourths of the separately stated "OPA Industry Reconversion Increase" appearing on the manufacturer's invoice to him (as required by Maximum Price Regulation No. 64).

(b) At the time of or prior to the first invoice to each purchaser for resale covering ranges sold at ceiling prices adjusted under this order, the seller shall notify the purchaser in writing of the method of establishing ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(c) All the provisions of Maximum Price Regulation No. 64 and the General Maximum Price Regulation continue to apply to sales of articles covered by this order except to the extent that they are notified by this order.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 14th day of May 1946.

Issued this 14th day of May 1946.

#### GREENE AND Co.

##### ORDER SETTING HEARING ON PETITION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 13th day of May 1946.

In the matter of petition of National Association of Securities Dealers, Inc., on behalf of Greene & Company for approval to continuance in membership in the National Association of Securities Dealers, Inc.

I. On May 12, 1946 the National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), filed with this Commission, on behalf of Greene & Company, a petition for approval to continuance of Greene & Company's membership in the Association, pursuant to the provisions of § 15A (b) (4) of the Securities Exchange Act of 1934.

II. The above mentioned petition states, among other things, that:

(a) W. F. Thompson is presently employed as a trader by Greene & Company, a member of the Association, with offices at 37 Wall Street, New York, New York.

(b) In 1941 and prior thereto, W. F. Thompson and one John J. Bell were partners doing business as W. F. Thompson & Company, said partnership at that time being a member of the Association with offices in New York.

(c) By decision of the District Business Conduct Committee for District #13, dated November 4, 1942, the partnership of W. F. Thompson & Company was fined the sum of \$1,200.00 and expelled from membership in the Association for conduct inconsistent with just and equitable principles of trade in violation of certain of the Association's Rules of Fair Practice, the decision finding that W. F. Thompson and John J. Bell were the cause of such order of expulsion.

(d) The District Committee for District #13 and the Board of Governors of the Association have reviewed the record in the proceedings resulting in such order of expulsion, have considered the subsequent activity of W. F. Thompson and his general reputation in the business community, and the matters referred to in W. F. Thompson's and Greene & Company's affidavits attached to said petition, believe that W. F. Thompson has been sufficiently penalized for the violations which were the subject of the disciplinary proceedings in 1942, have concluded that the continuance of Greene & Company in membership in the Association with W. F. Thompson as a partner or employee thereof would be consonant with the stated purposes and policies of Section 15A of the Securities Exchange Act of 1934, and request that the Commission approve the continuance of Greene &

Company in membership in the Association.

(e) The Association now applies for approval of the Commission to continuance of Greene & Company in membership in the Association with W. F. Thompson becoming and acting as a partner of Greene & Company or, if such approval is denied, for approval of the Commission to continuance of Greene & Company in membership in the Association with W. F. Thompson acting as a salesman, employee or other representative of Greene & Company.

(f) Under the provisions of § 15A (b) (4) of the Securities Exchange Act of 1934, as amended, and section 2 of Article I of the Association by-laws, the firm of Greene & Company may not be continued in membership in the Association so long as W. F. Thompson is a partner or employee of Greene & Company, except with the approval of the Securities and Exchange Commission.

III. The Commission deeming it appropriate that a hearing be held in this matter at which the applicant and all other interested persons be given an opportunity to be heard on the question whether it is appropriate in the public interest to issue the said order approving the continuance of membership in the Association of Greene & Company with W. F. Thompson as a partner or employee thereof.

*It is further ordered*, That the matter be set down for hearing at 10:00 a. m. on June 17, 1946, at the office of the Securities and Exchange Commission, 120 Broadway, New York 5, New York, and that the said hearing be continued at such other times or places as the Commission or the officer conducting such hearing may determine; that for the purpose of said hearing Richard Townsend be and he is hereby designated as the officer of the Commission to administer oaths and affirmations, subpoena witnesses and compel their attendance, take evidence, require the production of books, papers, correspondence, memoranda and any and all other records deemed relevant or material to the matters in issue at said hearing, and to perform all other duties in connection therewith as authorized by law.

*It is further ordered*, That a copy of this order be served on W. F. Thompson, Greene & Company, and on the Association not less than fifteen (15) days prior to the time of the hearing, and that this order and notice be published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act not later than fifteen (15) days prior to the time of the hearing.

#### EMPIRE SOUTHERN GAS CO.

#### ORDER GRANTING MOTION TO DISMISS APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of May A. D. 1946.

The Commission having issued its supplemental findings and opinion and supplemental order dated March 18, 1946 (File Nos. 54-108 and 59-81), permitting effectiveness to a declaration filed by Crescent Public Service Company ("Crescent") in connection with Crescent's plan theretofore approved by this Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, regarding the sale by Crescent of all the outstanding securities of Empire Southern Service Company ("Empire Service"), a gas utility company, to Empire Southern Gas Company ("Empire Gas"); and

Empire Gas on March 20, 1946, having filed an application, pursuant to section 3 (a) (4) of the Act, for exemption of Empire Gas and of Empire Service as a subsidiary company of Empire Gas from the obligations, duties and liabilities imposed by the Act upon holding companies and their subsidiary companies as such, alleging that Empire Gas was under a bona fide contractual obligation to acquire the securities of Empire Service from Crescent, and had undertaken to merge Empire Service into itself promptly after acquisition of said securities; that solely by reason of such acquisition Empire Gas would be temporarily a hold-

ing company with respect to Empire Service upon the acquisition of such securities and until the effectiveness of said merger; and that exemption of Empire Gas as a holding company and of Empire Service as a subsidiary of Empire Gas from all the provisions of the Act would not be detrimental to the public interest or the interest of investors or consumers; and

Empire Gas thereafter having filed a motion to dismiss said application for exemption, stating that it had acquired the securities of Empire Service, that Empire Service had been merged into Empire Gas on the same day and that Empire Gas was no longer a holding company; and

It appearing to the Commission that said application for exemption was filed by Empire Gas in good faith, that Empire Gas was temporarily a holding company solely by reason of the acquisition of the securities of Empire Service for purposes of liquidation in connection with a bona fide debt previously contracted, that pursuant to section 3 (c) Empire Gas was exempt from the provisions of the Act during the time it was a holding company by virtue of its application filed pursuant to section 3 (a) (4) of the act, that Empire Gas ceased to be a holding company as defined in section 2 (a) (7) of the act upon the merger of Empire Service into Empire Gas, and that dismissal of the said application for exemption will not be detrimental to the public interest or the interest of investors or consumers;

*It is ordered*, That the motion of Empire Southern Gas Company to dismiss its application for exemption from the provisions of the Public Utility Holding Company Act of 1935 be, and the same hereby is, granted.

#### COLUMBIA GAS & ELECTRIC CORP. AND DAYTON POWER AND LIGHT CO.

#### NOTICE OF FILING AND ORDER POSTPONING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of May 1946.

Notice is hereby given that Columbia Gas & Electric Corporation (Columbia), a registered holding company, and Columbia's public utility subsidiary, The Dayton Power and Light Company (Dayton), have filed an amendment to the application-declaration heretofore filed by those companies. The original application-declaration proposed, inter alia, that Columbia would offer to its stockholders the right to purchase all of its holdings of the shares of common stock of Dayton and, concurrently therewith, pursuant to the competitive bidding provisions of Rule U-50, publicly invite bids for the underwriting of such offer and the

purchase by the underwriters of such shares of common stock as would not be purchased by Columbia's stockholders. The instant amendment changes the foregoing proposal in that Columbia will offer the Dayton common stock for sale to underwriters, pursuant to the competitive bidding provisions of Rule U-50, without a prior offering of such stock to its own common stockholders.

In order that all interested persons may have notice of the instant amendment and opportunity to be heard in connection therewith, it appears appropriate that the hearing heretofore ordered to be held on May 15, 1946 in respect of the original application-declaration be postponed.

*It is hereby ordered*, That the public hearing heretofore ordered to be held on May 15, 1946, at the office of the Securities and Exchange Commission with respect to the original application-declaration (Holding Company Act Release No. 6589) be postponed to May 20, 1946, at the same time and place and before the same trial examiner previously designated, for the purpose of considering the matters embodied in the application-declaration, as amended. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

*It is further ordered*, That the Secretary of the Commission shall serve, by registered mail, a copy of this order on the Public Service Commission of Ohio, The United Corporation, Columbia and Dayton; and that said notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission on or before May 20, 1946, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.
